## PATIENT INSTRUCTIONS

You must inform the staff if you are **pregnant** (or if there is any chance that you may be pregnant) or if you are breast feeding.

### Scan preparation (if applicable):

- **Myocardial Perfusion Scan:** This test requires you to fast from midnight. Plain water is allowed. **Do not have caffeine (e.g. coffee, tea, coca-cola, chocolate) for 24 hours prior to your test.** Please consult your doctor regarding medications before the test.
- **Biliary Scan:** Please do not eat or drink for 6 hours prior to your test. If you are taking pain killers, please contact us for specific instructions.
- **Bone and Lung (V/Q) Scans:** No Preparation.
- **Colonic Transit:** This test is done over 5 days and you will need to attend our practice once a day for images (15 mins). Fasting from midnight. Please consult with reception regarding medication (certain medications might interfere with this test).
- **Renal Scans:** There are 3 different types of this test (depending on what your doctor is looking for) therefore when booking in, we require a copy of the referral.

**All other tests:** Please contact us for specific instructions.

**We require 24hrs notice for any cancellations.**

**Ground Floor, 13 - 15 Silver Street, Randwick NSW 2031**  
**Ph: 9197 8000 Fax: 9197 8029**

You doctor has recommended you use Spectrum Nuclear Imaging. You may choose another provider but please discuss with your doctor first.
